

Internet Sales Policy

Sherwood Industries Ltd. is the proud manufacturer of Enviro Heating Products (Wood, Pellet & Gas heating appliances). Enviro Heating Products have been recognized due to their high quality, durability and performance.

Enviro Heating Products are only sold through a network of authorized dealers. Enviro authorized dealers are trained professionals that can help you choose the right product for your home and perform any necessary warranty repairs, as they are up-to-date on all technical and product updates.

It is Sherwood's position that Enviro products are not permitted to be sold on the internet. Authorized dealers can advertise Enviro products on the internet; however, only to be sold in their designated territories.

If a consumer purchases an Enviro product over the internet and not from a local authorized dealer, that consumer will risk having the product installed by a non-factory trained contractor. In the event of any needed warranty work, neither the local dealer nor Sherwood Industries will be able to assist the consumer.

We highly recommend that a consumer purchase an Enviro product from a local authorized dealer, in order to receive full support when it comes to proper installation, correct product and speedy warranty respond time if required.
